## The 15<sup>th</sup> Dealey Plaza UK Canterbury Seminar 29<sup>th</sup> / 30<sup>th</sup> April 2017

### Welcome

*I am delighted to welcome you all, especially those attending for the first time, to Canterbury Christ Church University to this our fifteenth Dealey Plaza UK International Weekend Seminar. I really hope that you all have a very enjoyable few days, and find the event an interesting and absorbing occasion.*

*Once again we are tremendously lucky to have a fantastic line-up of speakers to present papers to us on a wide variety of subjects. Larry Hancock, a well known researcher, historian, and published author, has been a regular contributor to our seminars both in person, and over several years, very successfully, by telephone link. I am delighted to say that Larry will again be presenting to us. Canterbury would not be the same without the superb input that Larry has provided to us over many years now.*

*We also have two other very well known Researchers who will be presenting to us from the USA by telephone link; Vince Palamara, and Ed Ledoux. Both are experts in their fields, Vince being probably the world's leading expert on the Presidential Secret Service. Both are published authors*

*A very warm welcome goes to Jason Wilcox, one of DPUK's long time members, who will be presenting to us for the first time this year. Welcome back to Russell Kent who as many of you will know is an expert on the Medical Evidence. Alaric Rosman is of course back by popular demand. Canterbury would just not be the same without his superb presentations. Alaric has presented to us at just about every single Annual Seminar here in this beautiful city of Canterbury. Thanks go to Mike Dworetsky who has again agreed to act as our auctioneer in helping to raise funds for the Group and, of course, thanks go to all those who have kindly donated items for auction. We also have two excellent documentary films that will be shown during the Seminar.*

*This coming 29<sup>th</sup> May will be the 100<sup>th</sup> anniversary of the birth of John Kennedy. We shall be dedicating this seminar to his memory and our Vice-Chairman, Barry Keane, will be opening the seminar with a remembrance talk on the 35<sup>th</sup> President of the United States.*

*My sincere thanks go to Canterbury Christ Church University for once again hosting us here at their lovely campus. This year the Powell building was not available to us for administrative reasons but the facilities here at the Old Sessions House are very much up to the same superb standard. In particular I would like to mention Holly Richardson and Alessandro Paolieri, the Events and Marketing Coordinators here at the University, who have again gone out of their way to help make this weekend a success.*

## CONTRIBUTOR PROFILES

### MIKE DWORETSKY

Mike was an astronomer at University College, London and was also Director of the University of London Observatory. He grew up in California and was awarded his doctorate at UCLA, followed by two years of researching at Mount Wilson and Palomar Observatories before moving to England. He has been a student of the case since first attending a lecture by Mark Lane at UCLA in 1966. His first research was a photographic investigation, conducted with other students, to determine whether or not the shadows in the famous backyard photographs could be genuine. His interest was rekindled by reading Anthony Summer's Conspiracy in 1980 and discovering discrepancies in the acoustic evidence as presented to the HSCA. This led him into correspondence with the late Harold Weisberg. He is especially interested in the forensic aspects of the case. A

founder member of DPUK in 1996, Mike has written articles for The Echo and has been a presenter at Canterbury in past years. His prowess as our auctioneer is now well established.

### BARRY KEANE

Barry has been a very active member of Dealey Plaza UK for many years and is currently vice-chairman of the Group. He was 13 at the time of the assassination and has been studying all aspects of the case closely ever since he first saw the Zapruder Film in 1978. He has visited Dallas on two occasions and gave a joint presentation with former Bethesda Naval Hospital medical illustrator Harold (Skip) Rydberg at the 2003 Lancer Conference. Barry is particularly interested in the overall picture and the reasons why JFK was murdered.

### ED LEDOUX

Ed grew up on an Homestead, went to school at a university in Oregon, lives in Hawaii and mainland United States. He was very interested in Jack Ruby's motive to kill Lee Oswald, at a very young age. He did not believe it even at the tender age of 7. Having questioned his parents about what they knew I decided the story was a cover, or a lie. He had the pleasure of early "internet" and read many early theories on bulletin boards and chat rooms of the 80's. Then he read "Best Evidence". Lifton had a theory that was interesting so Ed decided to examine every page and search for all the answers for himself.

Whilst agreeing that the body was the best evidence, the theory that it could have been tampered with ultimately destroyed that theory in of itself.

Ed focused his attention on Oswald as that was the focus of the authorities and Warren Commission. If he was not firing a rifle out a window then he must have been somewhere else. If he was not shooting a pistol at a police officer then he had to be elsewhere.

Ed frequents neighbours and posting his interviews at JFK Lancer.

A much different picture emerged of the Oswald family by speaking to those who lived around Marina and Lee.

While at ROKC a highlight was working on Prayer Man research and Stan Dane's book of the same nomenclature.

Outstanding research evidence by the group points to Oswald, and confirms Sean Murphy. Ed began the search for first day news accounts, and the original Weigman and Darnell footage. The films have been located but access has been denied by the powers that be. Ed has written some humour filled essays and posts on the so called evidence:

Dallas Transit Transfers

No Shots Fired From TSBD

Oswald and the Amazing Technicolor Jacket

Back Yard Photography

Roll Call Remedy

The Watch List

What's In Your Wallet

Ed is very pleased to share his research with others.

### ALARIC ROSMAN

Alaric was born in Rottingdean, Sussex in December 1934. He has been a lot of things in a quirky life: a National Serviceman (in the Air Force); a commission-only salesman; a London University (external) B.SC graduate, a state and private secondary school teacher, and, finally, a museum warder at the National Gallery, London, where he was the senior trade union representative. He vividly remembers the Assassination, and listened through most of the night to the news reports. Even at that very early stage, he felt that what he was hearing didn't ring quite true, a conviction that has grown stronger and sharper over now nearly 50 years.

Alaric joined DPUK in 2002, and since then has contributed nearly 35 articles to the Journal; this will be the eleventh Seminar at which he has contributed a presentation. Alaric was also one of the authors who contributed

to the DPUK book published in 2013, "JFK: Echoes from Elm Street". Alaric is determined to uncover everything there is to know about that

Alaric will be talking to us this weekend about his research into Oswald's association with the CIA using material from the Warren Commission documents.

### LARRY HANCOCK

Larry is a graduate of the University of New Mexico with a BA in Education and majors in Anthropology, Sociology and Education. Following service in the United States Air Force, he worked in the telecommunications and computer communications fields for some 35 years - with Continental Telecom., Hayes Microcomputer and Zoom Technologies. During his career he held the positions of Technical Trainer, Technical and Engineering Training Manager, Marketing Manager and Marketing Director. He became involved with Kennedy assassination research in the early 1990's, and has focused on intelligence and national security aspects of the conspiracy.

He has published a variety of document collections and analysis on CD with JFK Lancer, contributed articles and essays to Lancer, DPUK, and the Mary Ferrell Foundation. His first book, with Connie Kritzberg (former Dallas reporter) was "November Patriots", a "docufiction" piece on the Kennedy Assassination. His second book, "Someone Would Have Talked", a factual study of the Kennedy conspiracy and cover-up is now in its third (2010) edition.

Larry has also done research on the RFK assassination, publishing a lengthy series of essays, Incomplete Justice, on the Mary Ferrell website and with Stuart Wexler spent some five years researching the assassination of Martin Luther King Jr.; the two wrote a book which documents a four year effort to kill Dr. King, entitled "Awful Grace of God". The book was published in 2012. He has also published a book entitled "Nexus: The CIA and Political Assassination (2011) and his latest e entitled "Shadow Warfare: The History of America's Undeclared Wars", was published in 2014

He was also one of the authors who contributed to the DPUK book published in 2013, "JFK: Echoes from Elm Street".

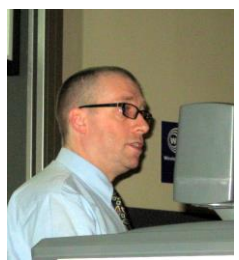

### VINCE PALAMARA

Vince Palamara is considered the leading civilian Secret Service authority, having interviewed and corresponded with over 80 former agents, many from the JFK era. Vince is also the author of three books: Survivor's Guilt (2013), JFK: From Parkland to Bethesda (2015), and The Not-So-Secret Service (2017). Vince is married and resides in Pittsburgh, PA (USA).

Vince has appeared on the History Channel, local cable access television, YouTube, radio, newspapers, print journals, at national conferences, and all over the internet.

A former JFK Secret Service agent Joe Paoletta once proclaimed to Vince: "You seem to know a lot about the Secret Service, maybe even more than I do"

The title of Vince's talk today is "The Secret Service Failure on 22<sup>nd</sup> November 1963 – Why President Kennedy should have survived Dallas.

### RUSSELL KENT

Russell runs a management consultancy company in Essex. He has a degree in physiology and spent two years in post-graduate research at St Thomas's Hospital in London. Whilst most aspects of the JFK assassination medical evidence interest him, he is particularly concerned with the single-bullet theory and the wounding of John Connally. Russell has published several papers on the case and appeared on Black Ops Radio. He has given presentations in Canterbury, Cambridge, Stockholm and Dallas where, in 1998, he was on the JFK Lancer Medical Panel with David Lifton and Dr David Mantik." He has undertaken much research into the case, particularly on the autopsy evidence.

### JASON WILCOX

Jason first became interested in the Kennedy Assassination in 2006, shortly after reading alternative accounts of the 9/11 terror events. At about the same time, he read the article in the "Times" magazine about DPUK, and promptly joined the group. He worked for a number of years at a literary agency, and subsequently has written and directed film dramas, several of which have been screened at small-scale festivals in the UK.

Jason, until quite recently, lived in one of the flats in the converted Board School on Durward Street which would have been a dominant landmark in 1888. The area was then known as Bucks Row and is famous as being the spot where the first official victim of Jack the Ripper, Mary "Polly" Nichols, was found murdered in the early hours of 31<sup>st</sup> August 1888. Our "sister" group is "TheWhitechapel Society" and many here today, would know the area well!

### **RANDOLPH BENSON**

Randolph is the Director, Co-Producer, and Editor of the film “The Searchers” that is being screened at this seminar. The film has garnered numerous awards, most notably an Academy Award for Best Student Documentary at the Academy of Motion Picture Arts and Sciences’ Academy Awards. Randolph also received an Eastman Kodak Excellence in Filmmaking Award at the Cannes Film Festival and a First Appearance Award at the International Documentary Film Festival Amsterdam. He has been an instructor of film and video at the Centre for Documentary Studies at Duke University for over a decade, and he serves on award juries at the Full Frame Documentary Film Festival (Durham, NC, USA) and the “Let’s All Be Free” Film Festival in London.

### **STEPHEN GOETSCH**

Stephen is the Director and Executive Producer of the film “A Coup in Camelot” which is being screened at this seminar. He has been involved with the film and television industry for over twenty years. From his roots in Wisconsin, starting as an Assistant Editor, he has since become an accomplished editor of film and television, editing hundreds of hours of national television on all major networks, including MTV, A&E, Discovery, Food Network, and National Geographic. He is also an award-winning screen writer.

# Dealey Plaza UK - 15<sup>th</sup> Canterbury Seminar

## Saturday 29<sup>th</sup> & Sunday 30<sup>th</sup> April 2017

To be held in The Old Sessions House Lecture Theatre  
Canterbury Christ Church University

### Saturday 29<sup>th</sup> April

09.45m – 10.00am Introduction to the Seminar

*Stuart Galloway*

10.00am – 10.15am **100<sup>th</sup> Birthday Year**

*Barry Keane*

Barry will reflect on the life of John Fitzgerald Kennedy in this the 100<sup>th</sup> year of his birth and express his own personal thoughts in relation to the traumatic times that JFK lived through during the height of the Cold War.

10.15am – 10.30am **Introductory talk, using video, by Randolph Benson to his film “The Searchers”**

*Randolph Benson*

10.30am – 11.05am **“The Searchers” – a Film by Randolph Benson (Part 1)**

A Portrait of Researchers of the Assassination of John Kennedy. Fourteen years in the making the film uses never before seen interviews, archival footage, and recently declassified documents to chronicle the past and present of these ordinary citizens and their contributions to revealing the truth about that terrible November day in 1963.

Suffering ridicule and being labeled with the intellectual scarlet letter of “Conspiracy Theorists”, these individuals have challenged the institutions of power for over 50 years. They have fought against great odds, as they often proclaim, “Take Back our History”.

11.05am – 11.20am **Break: Coffee/Tea**

11.20am – 12.10pm **“The Searchers” – a Film by Randolph Benson (Part 2)**

12.10pm – 1.40pm **LUNCH (Own Arrangements)**

1.40pm - 2.20pm **Update on Medical Evidence – Nurse Diana Bowron**

*Russell Kent*

Malcolm Blunt generously loaned Russell the entire archive of Harry Livingstone's tape recorded interviews with various witnesses to the

Assassination, knowing that Russell was very interested in Nurse Diana Bowron. Russell has converted these interviews to MP3 and it is fascinating to hear the witnesses original voices and the way Harry did his research. With only the exceptions of Drs. Humes, Boswell, and Finck, no-one in the world got a better look at the back of President Kennedy's head, and his wounds, than nurse, Diana Bowron (who originally came from England) at Parkland hospital. She actually washed the President's hair after his death, and assisted in cutting away his clothing when he was first brought in to Trauma Room One.

2.30pm – 3.30pm **A Talk on Sources and Criteria for Vetting Sources**

*Larry Hancock*

8.30amCDT – 9.30amCDT

Larry will be considering how Vetting Sources and Factors can be categorized into those that are “Wheat” and those that are “Chaff” by looking at Primary and Secondary Vetting Factors and establishing supporting corroborative evidence. The process is vital if we are to get true facts in any scenario.

3.30pm – 3.45pm **Break: Tea/Coffee**

3.45pm – 4.45pm

### The Secret Service failure on 22/11/63 – Why JFK should have survived Dallas

10.45am – 11.45am EDT

*Vince Palamara*

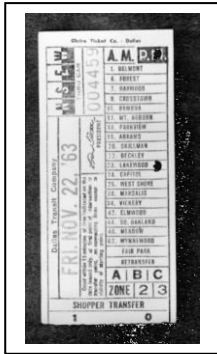

In his talk, Vince will be considering all aspects of the security that should have been afforded to the President of the United States on that fateful day by the Secret Service and how so much evidence relating to known threats was identified beforehand and simply ignored or not reported on. John Kennedy had at all times a great deal of trust in the men that guarded him. Vince shows how that trust was abused in so many ways.

4.45pm – 5.45pm

### The Bus Transfers – LHO's movements after the Assassination *Ed Ledoux*

08.45am – 09.45am PDT

Ed will be talking in detail about Lee Harvey Oswald's movements immediately after the Assassination – catching the Bus, Cecil McWatters' (the bus driver) evidence, Lee's alibi for the Tippit murder, and the famous Bus Transfer Tickets. What really happened that day when Lee Harvey Oswald left the Texas School Book Depository?

## Sunday 30<sup>th</sup> April

09.30am – 10.30am

### The DPUK Auction

*Mike Dworetsky*

Mike will be yielding his gavel in his own inimitable way and helping to raise funds for the Group. Many thanks to those people who have contributed items for auction.

10.30am – 11.30am

### Tabernacling in the Bowels of the Warren Commission

*Alaric Rosman*

The gist of Alaric's talk will be that by lowering himself into the very bowels of the Commission (it's thousands of exhibits and documents), he can establish from the Commission material (and using no other material) that it was well known to the Commissioners that Oswald worked for American intelligence, that the Commission material clearly shows that Oswald was framed and that there were at least two people using his identity. This was obvious 40 years before John Armstrong wrote his book "Harvey and Lee". Very likely there were three "Oswalds". The "Oswald" who "returned" from the Soviet Union was a Russian intelligence agent --- and known to be such by the CIA). The key point is that Alaric does not use any information not published in the Warren material --- that is he uses no information obtained after November '64 --- which means that all his conclusions were obvious 53 years ago.

In addition, Alaric will provide a handout. This will contain the actual presentation, with a continuation of its arguments, plus a line of reasoning that the Oswald of the Warren Commission was very likely a CIA creation, rather in the same way that Sherlock Holmes was a creation of Conan Doyle. Well, not quite! But nearly true. Again, in support of his arguments, Alaric never strays from what is in the November 1964 Warren material.

11.30am - 12.40pm **Predictive Programming in the Assassination of President Kennedy:  
Is This an Example?"** **Film/Talk** *Jason Wilcox*

Predictive programming is a recurring element across many conspiracy theories. The claim is that when conspirators plan a false flag operation, they hide references to it in the popular media before the atrocity takes place; when the event occurs, the public has softened up, and therefore passively accepts it rather than offering resistance or opposition. Jason will come up with some surprises here!

*12.40pm – 1.40pm LUNCH ( Buffet in the Lecture Theatre)*

*6.5mm Carcano Carbine*

During Sunday lunchtime our President, Mr Ian Griggs, will be demonstrating the operation of the so called “Mannlicher-Carcano” rifle that he owns. It is a version of the famous Italian rifle that is very similar to the one supposedly purchased by Lee Harvey Oswald and supposedly used to assassinate John Kennedy.

1.40pm – 3.20pm ***“A Coup in Camelot” – latest evidence by top researchers into the  
Assassination (Film)***

A documentary that shines a fresh light on the forensic “fingerprints” surrounding that fateful day in November of 1963, when President John F Kennedy was assassinated. The film features compelling analysis by the top medical, forensic, and research experts in the USA. *A Coup in Camelot* provides an in-depth study of how Secret Service protocols were not followed, and offers analysis of the famous Zapruder Film with stunning 6k digital scans to show a clarity 10 times greater than High Definition. Modern day forensics and wound ballistic techniques are applied to determine where the fatal head shot came from. Details of a casket shell game and shocking medical alterations done to the President’s body are revealed, to uncover a chilling story of conspiracy.

Experts unravel the turbulent story of Lee Harvey Oswald’s life and actions, and reveal the results of a decades long search for the Girl on the Stairs.

From JFK’s plans for peace, to the country’s immersion in Vietnam after President Kennedy’s death, this powerful examination of new research with exclusive interviews, unfolds to tell the dramatic tale of *A Coup in Camelot*

3:20pm – 3.30pm **Closure of the Seminar -**

*Stuart Galloway*
